

## Certificate of Analysis

|                    |                                                       |
|--------------------|-------------------------------------------------------|
| Product Name       | Basil Holy-Tulsi - ORGANIC                            |
| Botanical Name     | Ocimum sanctum                                        |
| INCI Name          | Ocimum Basilicum Oil                                  |
| Country of Origin  | India                                                 |
| CAS Number         | 8015-73-4 / 84775-71-3                                |
| EC / EINECS Number | 283-900-8                                             |
| Lot Number         | 8276602                                               |
| Manufacturing Date | July 5, 2025                                          |
| Retest Date        | 24 months from manufacture when stored as recommended |
| Shelf Life         | 24 months                                             |
| Document Date      | July 20, 2025                                         |

### Analysis Results

| Test             | Specification / Typical Range                       | Result   |
|------------------|-----------------------------------------------------|----------|
| Appearance       | Yellow to pale yellow liquid. Page 3/5              | Conforms |
| Odor             | Sweet, spicy with distinctive anise-like undertones | Conforms |
| Relative Density | 0.930 to 0.965 @ 25 °C                              | Conforms |
| Refractive Index | 1.490 to 1.512 @ 20 °C                              | Conforms |
| Optical Rotation | Typical product range                               | Conforms |
| Solubility       | Soluble in alcohol and oils. Insoluble in water.    | Conforms |
| GC-MS Profile    | Refer to accompanying GC-MS report                  | Conforms |

### Quality Statement

This certificate is prepared from current reliable source data and typical lot information available to West Coast Aromatics. Natural products may vary from lot to lot. The product is released to the best of our knowledge when stored and handled according to recommended conditions.
