Eugenol	Potentially naturally occurring
Farnesol	Potentially naturally occurring
Geraniol	Potentially naturally occurring
Isoeugenol	Potentially naturally occurring
Limonene	Potentially naturally occurring
Linalool	Potentially naturally occurring

IFRA Information

IFRA Status	Use is subject to the current IFRA Standards and the intended finished-product category.
Use Level	No universal maximum use level is assigned to the concentrated blend.
Customer Responsibility	The formulator must evaluate the final application category, finished-product exposure, and current supplier documentation before establishing a compliant use level.
Professional Use	For professional formulation. Do not apply the concentrated blend undiluted to skin.

Ingredient Basis

Prepared from the documented botanical composition of Luxury Heart: Ylang-Ylang Complete, Geranium Egyptian, Petitgrain Paraguay, Vanilla, Sandalwood East Indian, Frangipani Absolute, and Rose Damask Absolute. Formula proportions are proprietary and are not disclosed in this document.

Regulatory Statement

This document is prepared from current reliable raw-material information available to West Coast Aromatics. Natural composition may vary by crop and lot. Customers are responsible for confirming labeling, allergen disclosure, and IFRA compliance for their finished product and market.
