Vegan review	Suitable based on botanical composition	Declared
Kosher review	Suitable for customer certification review	Not independently certified

Material and Processing Statements

Natural Origin	The blend is composed of botanical essential oils, absolutes, and oleoresin. No synthetic fragrance is intentionally added.
GMO Statement	To the best of our knowledge, no genetically modified ingredient is intentionally added.
Non-Irradiation	To the best of our knowledge, the product and its ingredients are not intentionally irradiated.
Animal Origin	No animal-derived ingredient is intentionally used in the documented formulation.

Quality and Identity Support

Product Identity	Luxury Heart Synergy Blend
Appearance	Clear to slightly hazy mobile liquid.
Color	Pale yellow to amber.
Odor	Rich floral, softly sweet, warm, and woody characteristic aroma.
Solubility	Insoluble in water; soluble in alcohol and fixed oils.
Shelf Life	24 months when stored as recommended.
Storage	Store tightly closed in a cool, dry, well-ventilated place away from heat, light, and ignition sources.

Botanical Composition Basis

Ylang-Ylang Complete (Cananga odorata), Geranium Egyptian (Pelargonium graveolens), Petitgrain Paraguay (Citrus aurantium), Vanilla (Vanilla planifolia), Sandalwood East Indian (Santalum album), Frangipani Absolute (Plumeria alba), and Rose Damask Absolute (Rosa damascena). Formula proportions are proprietary and are not disclosed in this document.

Regulatory Review

Fragrance Allergens	Refer to the current Luxury Heart Allergen & IFRA Information document. Natural allergen composition may vary by raw-material lot.
IFRA	Final conformity must be evaluated against the current IFRA Standards, intended finished-product category, and customer use level.
California Proposition 65	The blend may contain naturally occurring constituents subject to California Proposition 65. Customer-specific exposure review may be required.
Safety Data	Refer to the current Luxury Heart Safety Data Sheet for workplace handling, hazard, and transport information.
Market Compliance	The customer is responsible for confirming finished-product labeling and regulatory compliance in each intended market.

Food Allergen Statement

To the best of our knowledge, the documented formulation does not intentionally contain peanut, tree nut, sesame, wheat, gluten, soy, dairy, egg, fish, shellfish, or intentionally added sulphites. This statement is based on formulation information and is not a lot-specific analytical test.

Final Declaration

The information in this document is obtained from current reliable sources and is provided to the best of our knowledge. Natural materials may vary by crop, geography, processing, and lot. This document is intended to support customer review; the user remains responsible for determining suitability and compliance for the intended finished product and market.
