## 02. HAZARDS IDENTIFICATION

Signal: Danger

|                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Emergency Overview</b>                     | Concentrated aromatic blend. Flammable liquid and vapour. May be fatal if swallowed and enters airways. May irritate skin and cause an allergic skin reaction. Toxic to aquatic life with long lasting effects.                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>GHS Classification</b>                     | Flammable liquid - Category 3; Aspiration hazard - Category 1; Skin irritation - Category 2; Skin sensitization - Category 1; Hazardous to the aquatic environment, long-term - Category 2.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Contains</b>                               | Contains naturally occurring aromatic constituents including alpha-pinene, limonene, linalool, benzyl benzoate, benzyl salicylate, farnesol, and related terpenes.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Supplementary Precautionary Statements</b> | For professional use. Use good industrial hygiene practices. Do not apply undiluted to skin.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>PBT or vPvB</b>                            | The finished blend has not been assessed as PBT or vPvB.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

## 04. FIRST AID MEASURES

|                     |                                                                                                                |
|---------------------|----------------------------------------------------------------------------------------------------------------|
| General Information | See categories below.                                                                                          |
| Inhalation          | Remove from exposure area to fresh air. Contact a doctor if necessary.                                         |
| Ingestion           | Wash mouth out with water and obtain medical advice immediately.                                               |
| Skin Contact        | Remove contaminated clothing. Wash thoroughly with soap and water. Seek medical advice if irritation persists. |
| Eye Contact         | Flush with plenty of water and seek medical advice if necessary.                                               |

## 05. FIRE FIGHTING MEASURES

|                                  |                                                                                                  |
|----------------------------------|--------------------------------------------------------------------------------------------------|
| Extinguishing Media              | Use CO2, dry powder or foam type extinguishers. Do not use direct water jet on burning material. |
| Unsuitable Extinguishing Media   | Do not use direct water jet on burning material.                                                 |
| Special Fire Fighting Procedures | Wear protective clothing. Avoid inhalation of vapors.                                            |
| Specific Hazards                 | Closed containers may build up pressure when exposed to heat.                                    |
| Protective Measures in Fire      | Cool exposed containers with water spray.                                                        |
| Hazardous Decomposition Products | Carbon monoxide, carbon dioxide and other unidentified organic compounds may be formed.          |

## 06. ACCIDENTAL RELEASE MEASURES

|                           |                                                                                    |
|---------------------------|------------------------------------------------------------------------------------|
| Personal Precautions      | Maintain good occupational and personal hygiene. Avoid contact with skin and eyes. |
| Environmental Precautions | Do not discharge directly into drains, soil, or waterways.                         |
| Spill Clean Up Methods    | Absorb with sand or inert material and transfer to suitable waste container.       |
| Containment Methods       | Contain spill with inert absorbent and collect for disposal.                       |

## 07. HANDLING AND STORAGE

|                     |                                                                                                                     |
|---------------------|---------------------------------------------------------------------------------------------------------------------|
| Usage Precautions   | Apply good manufacturing practice and industrial hygiene practices. Ensure proper workplace ventilation.            |
| Storage Precautions | Store in tightly closed original container in a cool, dry, ventilated area away from heat and protected from light. |

## 08. EXPOSURE CONTROLS / PERSONAL PROTECTION

|                       |                                                                    |
|-----------------------|--------------------------------------------------------------------|
| Engineering Measures  | Ensure good ventilation of working area.                           |
| Respiratory Equipment | Use suitable respiratory equipment if ventilation is insufficient. |
| Hand Protection       | Use chemically resistant gloves.                                   |
| Eye Protection        | Use safety glasses or tightly sealed goggles.                      |
| Other Protection      | Protective clothing as required.                                   |
| Hygiene Measures      | Wash hands with soap and water after handling.                     |

| Substance                | OSHA            | ACGIH           | STEL            | California Prop65 |

| Meditation Synergy Blend | Not established | Not established | Not established | Not established   |

## 09. PHYSICAL AND CHEMICAL PROPERTIES

|                     |                                                                         |
|---------------------|-------------------------------------------------------------------------|
| Appearance          | Clear to slightly hazy mobile liquid.                                   |
| Color               | Brown to reddish brown.                                                 |
| Odor                | Rich floral, resinous, balsamic, and creamy woody characteristic aroma. |
| Boiling Point       | Not determined for the finished blend.                                  |
| Flash Point         | Not determined for the finished blend.                                  |
| Relative Density    | Not determined for the finished blend.                                  |
| Specific Gravity    | Not determined for the finished blend.                                  |
| Solubility in Water | Insoluble in water.                                                     |
| Solubility Other    | Soluble in alcohol and fixed oils.                                      |
| Refractive Index    | Not determined for the finished blend.                                  |
| Optical Rotation    | Not determined for the finished blend.                                  |

## 10. STABILITY AND REACTIVITY

|                                    |                                                                                  |
|------------------------------------|----------------------------------------------------------------------------------|
| Reactivity                         | This material presents no significant reactivity hazard under normal conditions. |
| Stability                          | Stable under recommended storage conditions.                                     |
| Possibility of Hazardous Reactions | Hazardous polymerization will not occur.                                         |
| Conditions to Avoid                | Avoid heat, sparks, open flames, and direct light.                               |
| Material to Avoid                  | Strong oxidizing agents.                                                         |

|                                         |                                                                                                           |
|-----------------------------------------|-----------------------------------------------------------------------------------------------------------|
| <b>Hazardous Decomposition Products</b> | Carbon monoxide, carbon dioxide and other unidentified organic compounds may be formed during combustion. |
|-----------------------------------------|-----------------------------------------------------------------------------------------------------------|

## 11. TOXICOLOGICAL INFORMATION

|                                          |                                                                                                |
|------------------------------------------|------------------------------------------------------------------------------------------------|
| <b>Acute Toxicity</b>                    | No finished-product acute toxicity study is available. Harmful effects may occur if swallowed. |
| <b>Skin corrosion / irritation</b>       | Causes skin irritation.                                                                        |
| <b>Serious eye damage / irritation</b>   | May cause eye discomfort. No finished-product eye-irritation study is available.               |
| <b>Respiratory or skin sensitization</b> | May cause an allergic skin reaction.                                                           |
| <b>Carcinogenicity</b>                   | No finished-product carcinogenicity study is available.                                        |
| <b>Chronic Toxicity</b>                  | Repeated or prolonged exposure may cause skin sensitization.                                   |
| <b>Oral LD50</b>                         | Not determined for the finished blend.                                                         |
| <b>Inhalation LD50</b>                   | Not determined for the finished blend.                                                         |

## 12. ECOLOGICAL INFORMATION

|                                         |                                                                                      |
|-----------------------------------------|--------------------------------------------------------------------------------------|
| <b>Ecotoxicity</b>                      | Toxic to aquatic life with long lasting effects.                                     |
| <b>Mobility</b>                         | No finished-product data available. Insoluble material may spread on water surfaces. |
| <b>Persistence and Biodegradability</b> | No finished-product data available.                                                  |
| <b>Bioaccumulation Potential</b>        | No finished-product data available.                                                  |
| <b>PBT Assessment Results</b>           | The finished blend has not been assessed as PBT or vPvB.                             |
| <b>Precautions</b>                      | Prevent entry into sewers, drains, surface water, soil, or groundwater.              |

## 13. DISPOSAL CONSIDERATIONS

|                         |                                                                                                         |
|-------------------------|---------------------------------------------------------------------------------------------------------|
| <b>Disposal Methods</b> | Dispose of contents and container in accordance with local, state, provincial, and federal regulations. |
|-------------------------|---------------------------------------------------------------------------------------------------------|

## 14. TRANSPORT INFORMATION

|                             |                                                                                      |
|-----------------------------|--------------------------------------------------------------------------------------|
| <b>Proper Shipping Name</b> | Transport classification pending finished-blend flash-point and shipping assessment. |
| <b>UN Number Road</b>       | Not assigned                                                                         |
| <b>UN Number Sea</b>        | Not assigned                                                                         |
| <b>UN Number Air</b>        | Not assigned                                                                         |

## 15. REGULATORY INFORMATION

|                                  |                                                                                                                                                                                                                         |
|----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>EU Directives</b>             | Regulation (EC) No 1907/2006 and related amendments where applicable.                                                                                                                                                   |
| <b>US Federal Regulations</b>    | Applicable U.S. inventory and workplace hazard communication requirements.                                                                                                                                              |
| <b>California Proposition 65</b> | This botanical blend may contain naturally occurring constituents subject to California Proposition 65 review. Evaluate current raw-material data and intended exposure before making a product-specific determination. |
| <b>Canada Regulations</b>        | Applicable Canadian inventory requirements where relevant.                                                                                                                                                              |
| <b>Statutory Instruments</b>     | Applicable hazard information and packaging frameworks.                                                                                                                                                                 |
| <b>Approved Code of Practice</b> | Classification, labeling, and SDS guidance for substances and preparations.                                                                                                                                             |
| <b>Guidance Notes</b>            | Applicable workplace exposure limits and industrial hygiene guidance.                                                                                                                                                   |

## 16. OTHER INFORMATION

|                                  |                                                                                                                                                                                                                                                                                                                                                                                                                |
|----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Risk Phrases in Full</b>      | Not applicable under current GHS format.                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Hazard Statements in Full</b> | Classification is based on available constituent SDS information and mixture-classification principles; no finished-product toxicological testing has been performed.                                                                                                                                                                                                                                          |
| <b>Other Information</b>         | Complies with internal SDS formatting guidance.                                                                                                                                                                                                                                                                                                                                                                |
| <b>Other Classification</b>      | Physical properties and transport status require confirmation using finished-product test data.                                                                                                                                                                                                                                                                                                                |
| <b>Disclaimer and Caution</b>    | This information is based on current reliable sources and is provided in good faith for workplace handling. It is not represented as complete for every use. Recipients must determine suitability and comply with applicable laws. Review current technical and lot information before use. Complete finished-product flash-point and transport testing before assigning a regulated shipping classification. |
